Educational background

- 2022 - Nowadays **Self-learning development** - *I am learning cause I initiate myself, away from the setting of formal education, curriculums or examinations.*
Independent learning for me is about being self-motivated, disciplined and dedicated to improving yourself and your skill set.
- 2022 - 2023 **CyberBionic Systematics** - *Frontend Developer (React)*
- 2020 - 2022 **National University of Life and Environmental Sciences NUBiP** -
After 1.5 years, I realized that this university was not for me, and the specialty was not interesting enough. After which I decided to enter the National University of Vienna, submitted documents and was accepted. But unfortunately, the war began.

Work Experience

- Oct 2022 - Nowadays **FullStack developer**
I develop my own projects, while simultaneously improving my skills in development and computer science.
- Fab 2023 - Nowadays **QA & WebDeveloper**
